FULLY MANAGED HYBRID CLOUD MIGRATION.

The thought of migrating your IT infrastructure to the cloud can be overwhelming.

“Which public cloud can support my security requirements?” “My mission critical data can’t risk any downtime.” “I don’t know how many physical servers I have, let alone VMs.”

Now with Equinix Professional Services for Cloud (EPS Cloud) and Unitas Global’s joint Fully Managed Hybrid Cloud Migration Solution, you can relax. Through our customized migration roadmap and uniquely designed hybrid cloud solutions, we’ll get your IT infrastructure up to speed and keep it there.

◀ MIGRATION METHODOLOGIES

LIFT & SHIFT

Using the Lift and Shift methodology, EPS Cloud migrates your applications to the cloud without any code changes. // With this option, you’re able to map much of your existing infrastructure to the cloud on an as-is basis, making this approach ideal for

Data Center Retirement
Data Center Consolidation
Divestiture / M&A
DR / HA Site Relocation

GREENFIELD

Using the Greenfield methodology, EPS Cloud creates an architecture that can take full advantage of cloud deployed applications while balancing your other objectives of security, cost and performance.

// The cloud is constructed from scratch, isolated from existing infrastructure and engineered to maximize cloud capabilities. This approach is ideal for

Newer Applications
Added Sites / Businesses
New DR sites

◀ UNITAS ATLAS

Unitas Atlas is our unified monitoring platform that provides you with full insight to comprehensively manage the health and performance of your IT environment, during and post migration.

NETWORK MONITORING

APPLICATION MONITORING

SERVICE MONITORING

INFRASTRUCTURE MONITORING

◀ INDUSTRY STATS

69%

69% of enterprises have applications or infrastructure running in the cloud today.*

34%

Within two years, 34% of enterprises will have 60% or more of their applications on a cloud platform.*

19%

Cloud investments by large scale enterprises have gone up 19% over the previous year*

* (Gartner, IDC, Forrester, 451 Research)

◀ OUR PHASED APPROACH

1 | DISCOVER Unitas and EPS Cloud assemble a team to discover your business needs, technology, applications and security requirements.

2 | DESIGN Our Cloud Solutions Architects design a detailed and customized migration roadmap, including timeline, required resources and actionable items.

3 | BUILD & MIGRATE Our team procures, configures, migrates, and then validates the solution using systematic testing of your applications and services.

4 | DEPLOY We integrate Unitas Atlas™, our unified monitoring platform, to evaluate the environment and address any necessary adjustments.

5 | MANAGE Our Cloud Management Center operates 24x7x365 to provide ongoing monitoring and management of your environment.
